## Customer Reviews

This author obviously does not proof his work, there are many misspellings, improper sentence structure, incorrect punctuation and some chapters are repeated. An example from page 45 reads "Your Chihuahua will appreciate having a nice soft comfortable bed to call his or her own. Just like, you enjoy a nice soft mattress to sleep on. Your Chihuahua deserves the same from you, and being that they are such a large size breed dog, they need it even more!" Really? This makes sense? Waste of time and money.

Great book. My sister recently got a chihuahua who was off the hook and no matter what she did, she just couldn't get the dog to behave! We were at our wit's end and nothing seemed to help. I went to hoping to find something that might help due to the fact that my sister began to question whether or not she could keep her new pup. All I can say is that this book worked wonders! We were finally able to understand her dog a lot better and were able to figure out why he was behaving the way he was and were able to correct his problems. Now my sister has a dog that she can be proud of! I don't know where her dog would be without this book. Highly recommend!
