Gar Wood Boats: Power Classics Of A Golden Era

Synopsis

This is more than the story of the person and the company he founded in 1930-it is a photohistory of the magnificent boats themselves, and the extraordinary design, craftsmanship, and materials that made them legendary. Special attention is given to the Baby Gar, as well as runabouts, speedsters, utilities, and express cruisers-all built in Wood's Michigan boatworks.

Book Information

Customer Reviews

A Wonderful Portrayal of Classic Wooden Boating A one of a kind historic journey with Gar Wood, one of the pioneers of motorized wooden boating. The author's insight and knowledge of the subject is quite evident in page after page of the book. The pictures and illustrations are exquisite and beautiful to look at. This is a must read for anyone who loves classic boating, boating in general and American history, as you are taken on an epic journey with one of America's leading industrialists of a Golden Era. My kudos to the author for a job well done and express my hope that boaters across the nation will add this tome to their maritime libraries!!!

At the National Boating History Symposium in Cincinnati, Ohio on March 17, 2001, "Gar Wood Boats: Classics of a Golden Era," was selected as The Classic Boating Book-of-the-Year for 2001 by the National Boating Museum, Washington, DC. This prestigious selection is made annually to the book that contributes significant original research and valuable historic information related to boat building, design and performance. As the author of this book, I am pleased to share this

information with potential readers.

Purchased Gar Wood Boats by Anthony Mollica, very detailed description and fantastic pictures.
The best book on Gar Wood.

Excellent history of Gar Wood commercial boat production. Sadly, nothing is said of his relationship with Harry Miller, Miller engines, or much, for that matter, of Wood's boat racing.
