# Goldilocks And The Three Bears

## Synopsis

Some stories become favored childhood classics with good reason, such as the tale of Goldilocks. Here, in an abundantly funny retelling, the timehonored drama unfolds. This outrageously frilly, jump-ropeing Goldilocks skips through the bears' house, reciting saucy rhymes as she goes. Her wide-eyed glee makes a hilarious contrast with the genteel bear family, and children will love poring over the wonderful visual details, such as the bear-related knickknacks slyly scattered throughout the cottage. Another outstanding collaboration from Caralyn and Mark Buehner, *Goldilocks and the Three Bears* is perfect for sharing with children, adults, and fairy-tale collectors alike. --This text refers to an out of print or unavailable edition of this title.

## Book Information

Audible Audio Edition

Listening Length: 10 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Penguin Group USA and Audible

ASIN: B0016NBX10

Best Sellers Rank: #86 in Books > Audible Audiobooks > Children's Books > Fairytales & Folklore #1619 in Books > Audible Audiobooks > Children's Books > Fiction

## Customer Reviews

Everyone knows the story of little Goldilocks and the Three bears and this is basically the same story but with a lot more added to it! It shows where the bear family have gone while waiting for the hot morning breakfast to cool. Our curious and make yourself at home Goldilocks is skipping rope and looking for a friend to skip with. Up to the door she hops, knocks and no one answers. She's not giving up without 1 more knock and the door opens... and in she hops and so begins our story. What I like about this book is that the basic story we all grew up with and knew is still there but the author added more elements to this story. For example... when it comes to the beds... Papa's isn't hard... it's rock hard, and mama bear's bed is silky soft and Goldilocks slides off the bed and of course Wee bear bed is the best of all. And without ruining any more of the book I'll end my review here. This is just an enjoyable book with great illustrations!

I bought this book for my daughters 5. birthday because she loves that story. So I decided to get a "newer version" of it and even my husband has to smile about the pictures when he reads it to her :)

I first purchased this book several years ago when my granddaughters were toddlers. They are now 8 and 11 and still love this version of Goldilocks and the Three Bears. The book is beautifully illustrated and the comical take on this classic story is amusing and fun to read.

I gave this book to my granddaughter at her [...]birthday party and it stopped the show. She and her cousins, [...] had been opening toys and clothes one after the other, hardly glancing at any of them. When she opened this book and they started looking at the beautiful pages, they had to go through the entire book and look at each one! Here's a photo of the opening: [...]

I love when old stories are pepped up. Not too much or too little- it has to be just right. And that's what you get here. Both hilarious and warm touches added to this version make it interesting for kids, and adults will not get bored, either. We love the fact that you can find a bunny, a cat, and a T. rex on each page. My daughter has been doing that since she was three, when we bought a stack of "Hidden Pictures" mags from a thrift store. Not sure how, but it is good for kids' brains, so I'm all for the hidden stuff. Gotta go- my porridge is getting cold.

The beauty of this rendition of Goldilocks & the 3 Bears is Mark Buehner's illustrations. Always gorgeous, with an I Spy type of hidden animals in each painting, Mark Buehner allows my children to explore the pictures and the text at the same time. While the book is excellent, Mark and Caralyn Buehner have set a high mark. Not as innovative as Superdog and Snowman at Night, but fascinating all the same. I can't wait for the next Mark Buehner book to explore. The text by Caralyn Buehner is serviceable, but lacks the complexities of Fanny's Dream or the rhyming sequences of the Snowmen books.

This is a fantastic version of a classic tale. The illustrations are detailed, interesting and expressive, and the text is a delight. It's especially good for reading to little kids, as the text gives plenty of opportunity for different character voices (Papa bear, Mama bear, Little Wee Bear and Goldilocks herself).My 20-month-old son recently discovered it in his sister's book collection, and now he gets us to read it to him every night and twice on weekends.

I think correct grammar in children's books is a must! I did not care for this spin on a classic story. I also agree with a former review concerning the illustration of goldilocks. She looks like a psychotic brat.
