## Customer Reviews

Brilliant overview of the impossibly endless learning you can delve into in Ableton 9! Mr. Perrine definitely knows his way around the kitchen and what spices to use while still writing a more user friendly, understandable approach to learning your way around Ableton. I only wish he would update it for the new features that came with 9.5 suite. But, then again, no one could have seen those

awesome features coming! Cheers, Mr. Perrine! My only regret is that I bought the book online and missed out on the extra disc!

These books are great. I would start with Producing Music with Ableton Live 9 if you just spent 900 bucks and have no idea what you are doing. I'm getting my money out of my investment with just a few 20 dollar book.

Excellent book, easy to follow with applicable exercises as you progress. Loaded CD is also included, don't have to download a thing. THANK YOUUUU!!!
