## Customer Reviews

It was a little bit bigger than I thought it was going to be, but I love it. I already have quite a few passwords listed in it. I had been trying to find a password keeper, I am glad to have gotten this. I will use it to the fullest.

Wish they could design a password book that also holds all the computer, router, roku, and eother passwords too. Worth changing the pages for that lay-out! Otherwise, it will keep them. The large format works for me as I have a vision impairment, but I think 5 X 8 would be good for most people.

I love my password journal. I use it quite often and love that all my passwords are in one place. It is

not in ABC order but I did not want that feature. I love the colors on the front. It is a nice size also. I am so very happy that I purchased this item!

I have another type of password book at work that I like much better, it is small, fits in my desk drawer and is alphabetized, and has room for notes. This is a fairly big book with no alpha tabs so you would have to add some or just have the patience to look through every page for something. I bought it because it was pretty.
