## Customer Reviews

It is near impossible to extract single pages from the book without them ripping. Clearly it is intended to do so, as each page is perforated and conveniently punched for three hole binders. But: Over twenty pages taken out and not one that has all three holes intact, no matter how much I bend the pages first. Even using a ruler as a guide for ripping did not work! The perforation is too wide for the thickness of the paper. Do not buy this! Cute cover, but as they say, don't judge the book by its cover.

The "Real Book Staff Paper" - As per the description, it's a 400 page book (not quite an inch thick) with staff sheets (double-sided) that are perforated with three-hole punches. The actual sheets/pages are sturdy and well-constructed (pages are medium/high thickness). This product is versatile and should handle abuse fairly well. According to the reviews on [Amazon](#), a lot of other products seem to suffer from the "overly thick staff lines" that make them difficult to read and write music. The staff lines for this product don't have this problem at all. Also, as per the description, having only 9 staves per page allows for generous space for text and/or other notations. Great product! Although it

came with an inch-long rip on its first-page (get it together shipping!!!).

No frills, just lots of staves & pages that tear out easily. I always look for books without spiral binding so it doesn't scratch my piano & this is it. My only complaint is it has an uneven number of staves ( 9 ) per page & when writing for piano there's always an empty one . It's still my favorite.

This thing has lasted me over two years in a college jazz studies program. The only thing you get more bang for your buck for is Ramen Noodles.

It is fantastic. I use it for teaching private students and it is clear and easy to read. After I got 3/4 of the way through the book the sheets did get more difficult to rip out, but it really is not that bad. I'm ordering it again right now and though I should write a quick review because this book has saved me time and money making duplicate copies of staff paper. THANKS!

Spacing is nice, I just wish the staves were a little bigger. Perforation is so-so at best ... I don't think I have ever been able to cleanly tear out a sheet. This is nice if you need scratch paper or if quality is not a concern.
