Customer Reviews

The substance of this book is excellent, but it was hastily constructed. The fold of the spine does not configure with the staples and the book cannot be made to stay open completely. I will have to take it apart, cut the pages apart, and have them bound with a spiral in order to use the book. When this is completed, I will be able to learn from the etudes.

Again, a recommendation from a cello instructor--moves at a good pace and builds on concepts from Book 1.
